Attention: George Haley – President

10/05/10

George,

It is my pleasure to provide this letter of support to Venture Dynamics in their attempt to compete for the NSSA Contract N5005410R0012.

Venture Dynamics has provided Metro Machine with Skilled Leased Labor services over the last seven years. You have consistently provided skilled tradesmen commensurate with their resumes and our expectations over that period making for a seamless working relationship. The Venture Dynamics Management Staff has new tradesmen trained in company policy and safety before they "clock in" their first day. You and your staff have built a solid working relationship with each of Metro's shop Foreman which expedites manpower planning. Venture has been the provider of the bulk of our skilled Journeymen over the years bringing with them the workmanship, productivity and quality you would expect of a vested marine journeyman mechanic. If I can be of further assistance I can be reached at 757-647-2194 or ken@memach.com.

Kenneth D. Newman
Executive Vice President
Metro Machine
