

MAERSK LINE, LIMITED

October 5, 2010

Mr. George Haley, President
Venture Dynamics Enterprises, Inc.
2115 High Street
Portsmouth, VA 23704

Dear Mr. Haley,

It is my understanding that Venture Dynamics Enterprises, Inc. is interested in competing for a contract to be issued by the U.S. Navy under NAICS code 336611 under which the Norfolk Ship Support Activity will procure production support and maintenance onboard U.S. Navy or military type vessels. The purpose of this letter is to provide a letter that will document the past performance of Venture Dynamics Enterprises, Inc in providing similar support to Maersk Line, Limited.

Maersk Line, Limited has served the U.S. Navy since 1984, managing over 20 contracts and charters of all types of military and commercial vessels. As the largest single operator and maintainer of Military Sealift Command vessels, Maersk subcontracts for qualified technicians and tradesmen to perform repairs on these vessels. Venture Dynamics has provided Maersk Line, Limited with skilled labor services for over six years. During this time, they have consistently provided professional and highly skilled tradesmen that possessed all necessary certifications and qualifications that were required.

Most recently, Maersk Line, Limited had an urgent requirement for an Assistant Port Engineer to oversee boiler super heater repairs on the SS ALGOL, a government owned Fast Sealift Ship in Alameda, California. On extremely short notice, Venture Dynamics provided an outstanding candidate that met all qualifications. In numerous other instances, Venture Dynamics has been able to consistently provide highly skilled labor to support maintenance and repair services to Maersk Line, Limited vessels. Venture Dynamics has been extremely proactive in acquiring the necessary insurance coverage, ensuring USCG and ABS regulatory requirements are met, and that work provided meets MLL expectations.

As a result of their quality workmanship, productivity, and responsiveness, Venture Dynamics has developed an outstanding working relationship with Maersk Line, Limited, and has become one of our most reliable suppliers.

In summary, Venture Dynamics' performance of subcontracts and purchase orders for Maersk Line, Limited has been outstanding. They have performed all work on time, at a competitive price, and in a high quality fashion. I highly recommend them for consideration for the contract mentioned above.

If you have further questions, please feel free to contact me at (757) 852-3230, or e-mail at jgerdes@mllnet.com.

Sincerely,

J. E. GERDES
Director of Contracts
